Good morning, and welcome to the weekly planning meeting. Today we need to decide on the launch date for the new mobile app.

QA Lead · 00:00:08
Thanks. I reviewed the test results yesterday. The crash rate dropped to under 1%, so I think we are nearly ready.

That is great news. What about the translation work for the Spanish and French versions?

QA Lead · 00:00:25
The Spanish UI strings are finished. French should be done by Thursday, assuming the agency delivers on time.

Perfect. Then let's aim for a launch on the 15th of next month and review progress again on Friday.
